

Texas Assessment of Processing Speed (TAPS)

Grosch & Cullum, 2012

Instructions

Demo Items

Here we have different symbols paired with numbers. Each symbol has its own number. Your job is to fill in the correct number that goes with each symbol.

Here is a symbol (*point to first one*). **This number** (*point to the number inside symbol*) goes with this symbol, so I would put it here like this (*write in number below*).

Here is the next symbol (*point*). **This number** (*point to number inside 2nd symbol*) goes with this symbol, so I would put it here like this (*write in number*).

This symbol (*point to 3rd symbol*) goes with this number (*point to number inside 3rd symbol*), so I would put it here like this (*write in number*).

Practice Items

Now you do the rest of these, in the gray box. Stop here (*point to end of gray box*).

Test Items

Good. Now that you know how to do it, I want you to continue filling in the number that goes with each symbol. Be sure to work from left to right, without skipping any. When you finish this line go on to the next one. (*Point to first row, then second row of symbols*).

When I say begin, start here (*point to first item*) and **work as quickly as you can**, without making mistakes until I tell you to stop. **Ready? Begin!**

Begin timing. Stop subject at 60 seconds.

Scoring

Score 1 point for each correct response and record on response form (*Max score = 75*).
